Design Intent

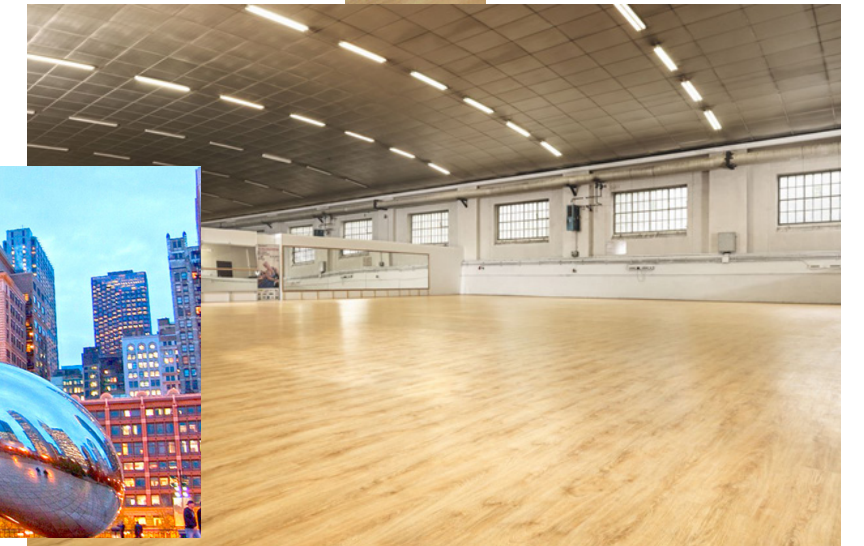

Kylie N Interior Design firm has been awarded the contract for the design of Nike Pop-Up store in Chicago, Illinois. The overall design will support and be more directed towards our strong independent women of the USA. There isn't a Nike store that has just women clothing and shoes. The design will also incorporate women athletes such as dancers, gymnast, and cheerleaders. These three sports aren't always seen as a sport.

Concept Statement

Feminism is a big thing today. This store will show feminism by having bright and dark paint on the walls. I want all women to come into this store feeling special because its directed towards them and I want women athletes like the dancers, gymnast, and cheerleaders to feel like they are finally recognized with all the other athletes. I will use neon lights and poster as the focal point.

CHICAGO DANCE ACADEMY

Nike is a well-known sports store. This new Nike Pop Up store will be located in Chicago. This Nike store will be more directed towards cheerleaders, dancers, and gymnast. This Nike Pop Up store will have more of a feminine/sporty tastes with it. We will make this happen by adding chandeliers and leather furniture. Cheerleaders, dancers, and gymnast aren't always considered as athletes. By making this store directed towards them, these ladies will not feel left out.
